## PROGRAM

Four days **guided tour** along the best spots of Dolomiti di Brenta.

**Tour starts in Vallesinella**, also known as the main entrance of the Natural Park Adamello Brenta to the Dolomiti di Brenta. We will be back here in four days. Uphill through Rifugio Casinei keep us to **Rifugio Brentei**, restored in 2021 has a new face and is completely renovated: day one is not so challenging but enough to warm up the group, meet the guide, check the equipment and enjoying the amazing sunset panorama and a fresh beer in front of rifugio. Diversion is available by pass through Rifugio Tuckett and then Rifugio Brentei by an easy hike or, for very challenging groups, adding the Sosat ferrata from Rifugio Tuckett to Rifugio Brentei.

**Day two is the Bocchette Centrali** ferrata day: **one of the best, famous, panoramic and “quite easy” ferrata of the Alps**. A **must do in life** ferrata for everyone “ferrata lovers”. Keep up your ferrata kit if you have it or rent it (we can provide for it) and learn the ferrata progression with our guide. It is possible to cut the ferrata by choosing the normal route (in case of bad weather or for those who don't feel ok with ferrata). **Rifugio Tosa Pedrotti** is a very cozy hut managed by a very handsome and nice family.

**Day three** is the **wild day**, crossing a very wild area reaching **Malga Spora**, a different accommodation (one big room for everyone) but lovely cuisine. A true experience to live the mountain in another face.

**Day four** is a long walk that keeps you back through **amazing sceneries** until the last one, the Vallesinella falls: the last photo before reaching the starting point.
